Welcome to Columbus, Ohio and SAFECON 2006!!

To all SAFECON competitors,

Welcome to The Ohio State University and SAFECON 2006. For some of you, it has been a journey just getting here. Being the host school, we do not envy those of you who have had to travel across country in a Cessna 150. So to all of the schools, thank you for making the pilgrimage to Columbus, Ohio. It is going to be a great week of competition. There is a terrific group of Officers and Judges who will and have worked very hard to make this week possible.

SAFECON is an excellent opportunity to build relationships in the Aviation community, so please make the most of it and spend some time with the industry representatives and especially the other teams here this week. As a team, we offer help to all teams, so if you have any questions and need anything, just ask the kids in the red jackets. Whether this is your first competition or your last competition, enjoy yourself this week and make the most of it. Finally, all the teams here have put in many hours of practice and hard work, so to every team, good luck this week!
