NOTES:

1. The following pages are presented as a guide for selection of trophies and awards. The purpose is to attempt to maintain a high degree of consistency from SAFECON to SAFECON. As well as to ensure the presentation of elegant and highly desirable awards. The images shown may be of products no longer offered by vendors.
2. Use your judgment in selecting replacements. Mat colors can vary to match school colors if desired. However, the gold tone WOOD frames are strongly recommended.
3. Do not interchange event awards from trophies to plaques or framed certificates. Trophies are for TEAM awards. Plaques and framed certificates are for individual awards. Trophies are displayed in trophy cases which individuals normally do not have. Plaques and framed certificates are displayed on office or home walls.
4. Engraving fonts should not be changed. Font sizes may vary to accommodate plate size.
5. Small, thin, square rubber adhesive pads (brown) attached at the four corners of the framed certificates will prevent rubbing and subsequent marring of frames when stacked.
